Stop- and ball valves

STATEMENT BY KIWA

With this product certificate, issued in accordance with the Kiwa Regulations for Certification, Kiwa declares that legitimate confidence exists that the products supplied by

Viega GmbH & Co. KG

as specified in this product certificate and marked with the Kiwa®-mark in the manner as indicated in this product certificate may, on delivery, be relied upon to comply with Kiwa evaluation guideline BRL-K604 "Stop- and connecting valves", dated 7 January 2022"

which covers the requirements of

EN1213:1999 "Building valves - Copper alloy stop valves for potable water supply in buildings"

and

EN13828:2003 "Building valves – Manually operated copper alloy and stainless steel ball valves for potable water supply in buildings"

Ron Scheepers

Stop- and ball valves

FITNESS FOR CONTACT WITH DRINKING WATER

This product is approved on the basis of the requirements for hygienic aspects set in the "Regeling materialen en chemicaliën drink-en warm tapwatervoorziening" ("Materials and chemicals in the supply of drinking water and warm tap water Regulation" dated 01-07-2017; published in the Government Gazette).

These hygienic aspects are based on two main criteria. The product shall permanently comply with:

- The product recipe approved during the assessment procedure. This recipe is not to be changed without prior approval by Kiwa according to the Kiwa approval procedure for the hygienic aspects;
- Specific product requirements for the hygienic aspects.

The recipe and specific product requirements are laid down in the for confidentiality reasons undisclosed 'appendix hygienic aspects' to this certificate.

MARKING

The Kiwa®-mark products are marked with the word mark "KIWA $^{\mbox{\@ }}$ " or the abbreviated mark $^{\mbox{\ensuremath{}}}$ ", Place of the mark: on the body

Compulsory specifications:

- manufacturer's name or mark: on the body,
- nominal size: "DN.." on the body
- marking as specified in EN1213 or EN13828

Method of marking:

- Non-erasable;
- · visible after assembly.

APPLICATION AND USE

Stop- and connecting valves are designed to shut off, if desired temporarily, conduit pipes of drinking water installations intended for transport of drinking water with a maximum pressure of 1000 kPa and a water temperature with a maximum of 65°C. Using the products in water installation with a (temporarily) temperature up to 90°C is possible. However, this may affect the durability of some parts and the contact temperature of the operation handle.

RECOMMENDATIONS FOR CUSTOMERS

Check at the time of delivery whether:

- the supplier has delivered in accordance with the agreement;
- the mark and the marking method are correct;
- the products show no visible defects as a result of transport etc.

If you should reject a product on the basis of the above, please contact:

Viega GmbH & Co. KG

and, if necessary,

• Kiwa Nederland B.V.

Consult the supplier's processing guidelines for the proper storage and transport methods.
